CALIFORNIA PROPOSITION 65
STATEMENT OF COMPLIANCE

California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) refers to the California legislation that was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals. Proposition 65 requires businesses to notify Californians about significant amounts of chemicals in the products they purchase, in their homes or workplaces, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

The composition and concentration levels of the raw materials used to produce the compounded formulary for HEARTWOOD CORP. Internal Concrete Sealer (ICS), does not contain chemicals at concentrations that would require a Proposition 65 warning label.

WINSOL Laboratories hereby certifies that the above is true and correct, to the best of our knowledge. If you should have any questions, please do not hesitate to contact the undersigned at 800-782-5501, ext. 14, or garym@winsol.com

Respectfully,
WINSOL Laboratories, Inc.
